eResearch Australasia 2012 Conference Update - Program now available!

The program for the eResearch Australasia 2012 emPower eResearch Conference is now available on the conference website!

This year's program is packed to the brim with interesting speakers and topics. Kick start the conference by attending Sunday's BoF sessions starting from 3:30pm, then meet friends and colleagues at the Welcome Reception from 6.00-7.30pm. The Official Opening of the Program is at 8.30am on Monday 29 October.

Featured speakers include:

Dr Cliff Jacobs – *Senior Advisor Geoscience from the National Science Foundation (NSF), USA*
NSF encourages the community to envision and create an environment where low adoption thresholds and new capabilities act together to greatly increase the productivity and capability of researchers and educators working at the frontiers of Earth system science. This initiative is EarthCube

Prof Jeffrey Shaw – *Dean, Creative Media from the City University of Hong Kong, China*
In a prolific oeuvre of widely exhibited and critically acclaimed works (**www.jeffrey-shaw.net**) Professor Shaw has pioneered and set benchmarks for the creative use of digital media technologies in the fields of virtual and augmented reality, immersive visualization environments, navigable cinematic systems and interactive narrative.

Mr Rudolf Dimper – *Director, European Synchrotron Radiation Facility, France*
Rudolf will present the principles of synchrotron radiation research, and then show some key examples of research on societal challenges of advanced materials, life sciences, and energy.

Prof Anne Trefethen - *Chief Information Officer and a Professor of Scientific Computing at the University of Oxford*
Professor Trefethen has worked for almost 20 years in industry and academia with a focus on numerical algorithms and software, computational science and high-performance computing.

Don't miss out on the Australian eResearch Forum which will be held on Tuesday 30 October where leading eResearch practitioners and researchers will meet to share ideas on how to help researchers collect, manage, share, process, analyse, store, find and re-use information.

The conference has experienced a substantial increase of high quality sponsors this year, all of which share a common interest in eResearch. To see current sponsors, click here

To view the current program, please visit the conference website by clicking here.

Don't forget early bird registration closes on **Sunday 30 September** so register today to ensure you receive the discounted registration. To register now, click here.

If you require any additional information, please do not hesitate to contact the Conference Secretariat on 02 6281 6624 or conference@conlog.com.au.

We look forward to welcoming you to Sydney in October.

Kind regards,

The Conference Logistics Team
